Nitrox is an open-source, multiplayer modification for the game Subnautica. The mod is in the very early stages of development; however, a solid foundation has been laid for the community. We round up the best Subnautica mods, including better bases, easier crafting, and a handy map app, and we also tell you how to install them in your game. Before modding, download and install QModManager 4. Run it and link it to your Subnautica install location. It should create a folder in the 2022_6_8_ . Installation. Right after you obtain the .zip file from the previous step simply extract it on the location you would like to keep your mod installed. It should look like the picture on the right. Running the Nitrox Launcher.exe will launch the Launcher. Usually, the launcher finds the game install location on its own and just clicks "PLAY." . Feb 25, 2019 - Tons of items, bosses, a new biome, a new class and much much more. Arguably the best mod for now. (Requires a new world). Galamity - More or less the dark souls terraria with heaps of great bosses and weapons that go well beyond post moonlord. Overall an amazing and challenging mod and my personal favourite out of all the current tmodloader mods. . BioWare Social Network.
